

Holly Colt has spent many years as a member of the Worcester County Chapter of ASSE, as well as a valuable member of our Executive Committee. In fact, the year Holly joined ASSE, Nancy Kerrigan was clubbed on the right leg by an assailant, Lorena Bobbitt was found not guilty by reason of insanity, Nicole Brown Simpson and Ronald Goldman were murdered, Ronald Reagan announced he had Alzheimer's disease, and Jacqueline Kennedy Onassis died. The year was 1994.

Holly is an Environmental Health and Safety Engineer, currently employed at AOA/Xinetics (a subsidiary of Northrop Grumman) in Devens, MA. She started this new role as EHS Engineer on January 28, 2013, and is responsible for EHS at 7 sites located in Devens, Templeton, Cambridge and E. Hartford, CT. This is a new and exciting role for Holly as her new company is involved in manufacturing products for the aerospace industry. She has always enjoyed learning something new and this company has been keeping her very busy so far! Regrettably, Holly had to take a break from her duties as Worcester Chapter Secretary during this transition into her new job, and we all hope Holly comes back to being an active member of the Chapter's Executive Committee soon.

Previously, Holly has worked at AMSC in Devens, MA, Saint-Gobain in Worcester, MA and Lucent Technologies in Sturbridge, MA in the field of Environmental Health and Safety. She has had some great work experiences and has traveled to many states as well as out of the country. Two of my most memorable times working at AMSC was the opportunity to travel to Austria and climb a wind turbine as well as visit China and see the Great Wall of China and visit the World's fair.
